Water Scarcity in Oklahoma: Market Solutions to Political Conflict

This hands-on seminar will have four parts.

1. In the first, David will briefly review the causes of conflict over water scarcity.

2. In the second, the audience will provide examples of conflict over scarcity in Oklahoma.

3. In the third, everyone will participate in a demonstration of the all-in-auction, as a possible mechanism for reducing conflict and reallocating scarce water.

4. We will end with a discussion of how the AiĂ (or other mechanisms) can reduce Oklahoma’s water scarcity.
